

兔抗 NR1H3 多克隆抗体

中文名称: 兔抗 NR1H3 多克隆抗体

英文名称: Anti-NR1H3 rabbit polyclonal antibody

别名: LXR-a; LXRA; RLD-1

相关类别: 一抗

储存: 冷冻 (-20℃) 避光

宿主: Rabbit

抗原: NR1H3

反应种属: Human, Mouse, Rat

标记物: Unconjugate

克隆类型: rabbit polyclonal

技术规格

Background:	The protein encoded by this gene belongs to the NR1 subfamily of the nuclear receptor superfamily. The NR1 family members are key regulators of macrophage function, controlling transcriptional programs involved in lipid homeostasis and inflammation. This protein is highly expressed in visceral organs, including liver, kidney and intestine. It forms a heterodimer with retinoid X receptor (RXR), and regulates expression of target genes containing retinoid response elements. Studies in mice lacking this gene suggest that it may play an important role in the regulation of cholesterol homeostasis. Alternatively spliced transcript variants encoding different isoforms have been found for this gene.
Applications:	WB
Name of antibody:	NR1H3

Immunogen:	Fusion protein of human NR1H3
Full name:	nuclear receptor subfamily 1, group H, member 3
Synonyms :	LXR-a; LXRA; RLD-1
SwissProt:	Q13133
WB Predicted band size:	50 kDa
WB Positive control:	MCF7 cells
WB Recommended dilution:	500-2000
