

兔抗 SSX5 多克隆抗体

- 中文名称: 兔抗 SSX5 多克隆抗体
- 英文名称: Anti-SSX5 rabbit ployclonal antibody
- 相关类别: 一抗
- 储存: 冷冻(-20℃)
- 宿 主: Rabbit
- 抗原: SSX5
- 反应种属: Human
- 标记物: Unconjugate
- 克隆类型: rabbit polyclonal

技术规格

Background:	The product of this gene belongs to the family of hig hly homologous synovial sarcoma X (SSX) breakpoint p roteins. These proteins may function as transcriptional repressors. They are also capable of eliciting spontaneo us humoral and cellular immune responses in cancer p atients, and are potentially useful targets in cancer vac cine-based immunotherapy. While some of the related SSX genes are involved in t(X;18)(p11.2;q11.2) transloca tions that are characteristically found in all synovial sar comas, this gene does not appear to be involved in su ch translocations.
Applications:	ELISA, WB
Name of antibody:	SSX5
Immunogen:	Synthetic peptide of human SSX5
Full name:	synovial sarcoma, X breakpoint 5
SwissProt:	O60225
ELISA Recommended dilution:	1000-2000

WB Predicted band size:	22 kDa
WB Positive control:	A431, Jurkat and Raji cells
WB Recommended dilution:	200-1000
